Installation Procedure

Windows 10 or 11 operating machines

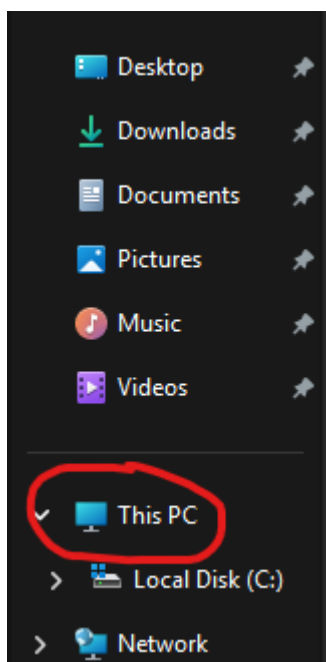

- The application will be originally held in a thumb drive that holds all related data. Once the thumb drive is delivered to the client, the installation process is as follows,

Inserting Thumb Drive and Accessing the Executable

1. Take the thumb drive that contains the program and insert it into the USB 2.0/3.0 port on your desired computer
2. Open File Explorer, and locate the thumb drive under "This PC"

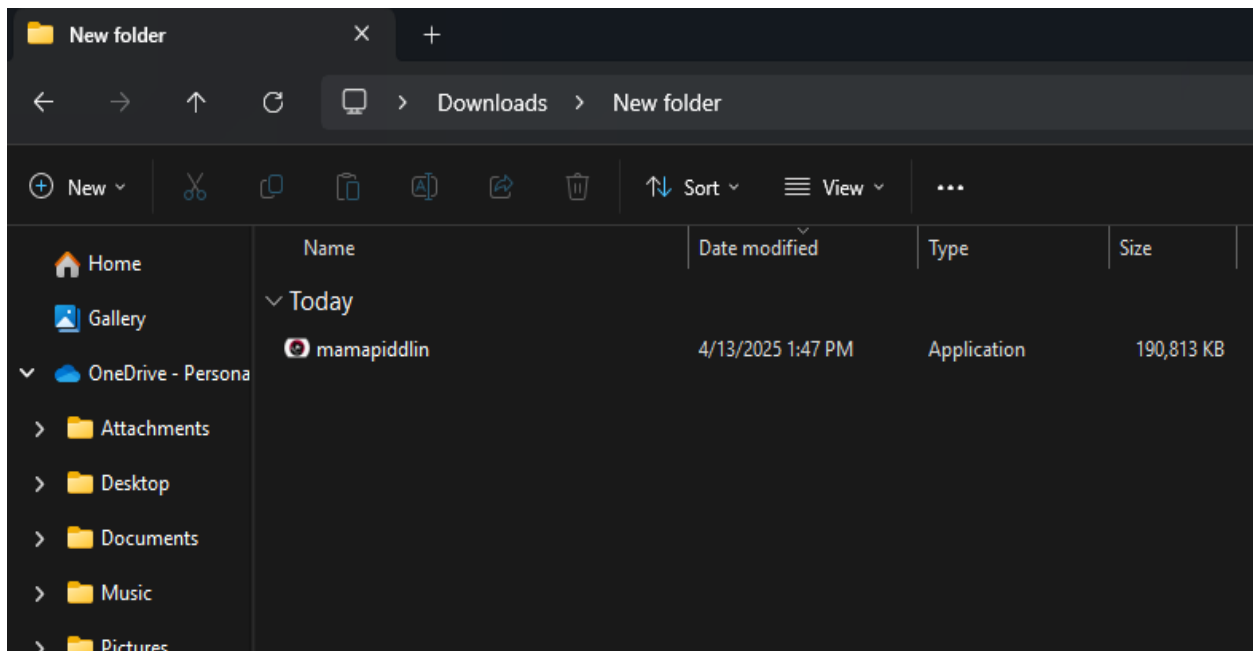

1...Thumb Drive & Executable

2...Thumb Drive & Executable

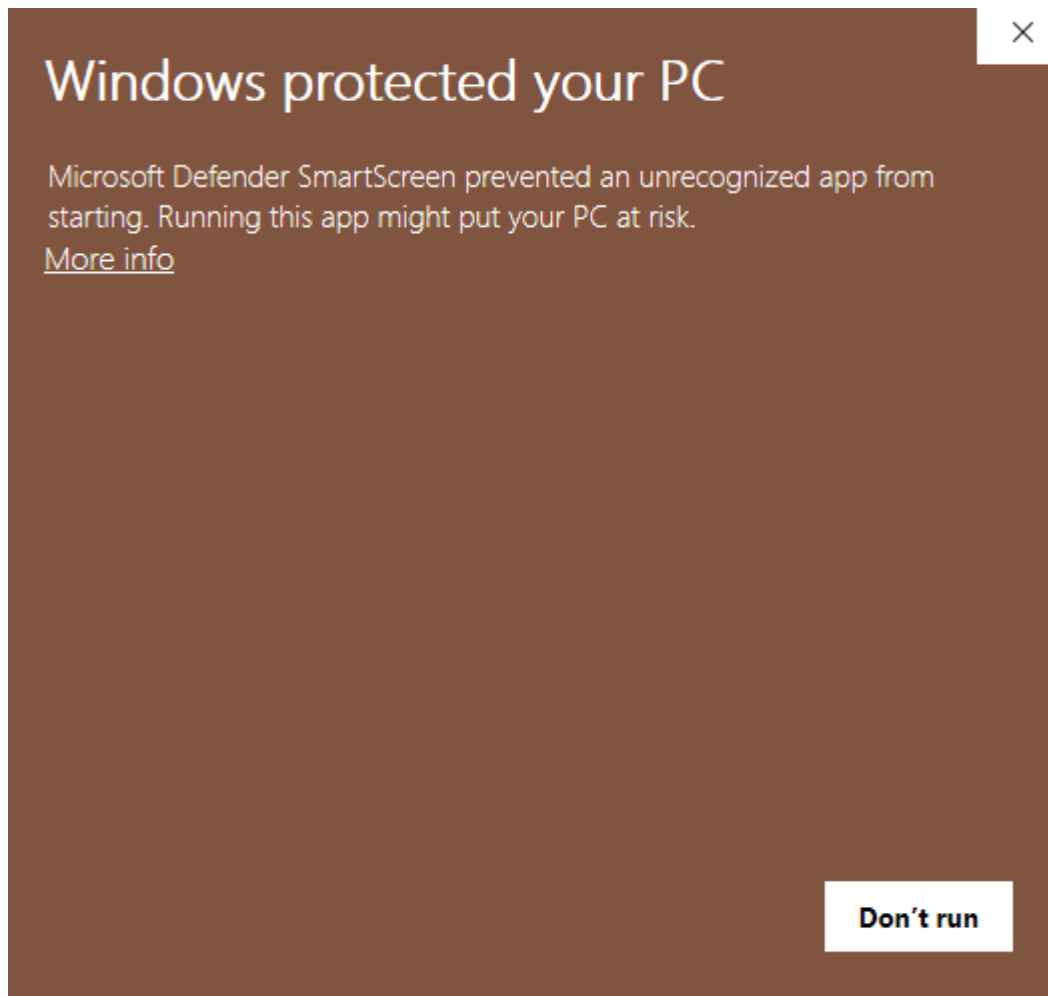

3. Once inside **This PC** double click the name of the **USB drive**
4. There will be a singular folder inside the USB drive. Double click that folder

5. Inside the application will look like this below

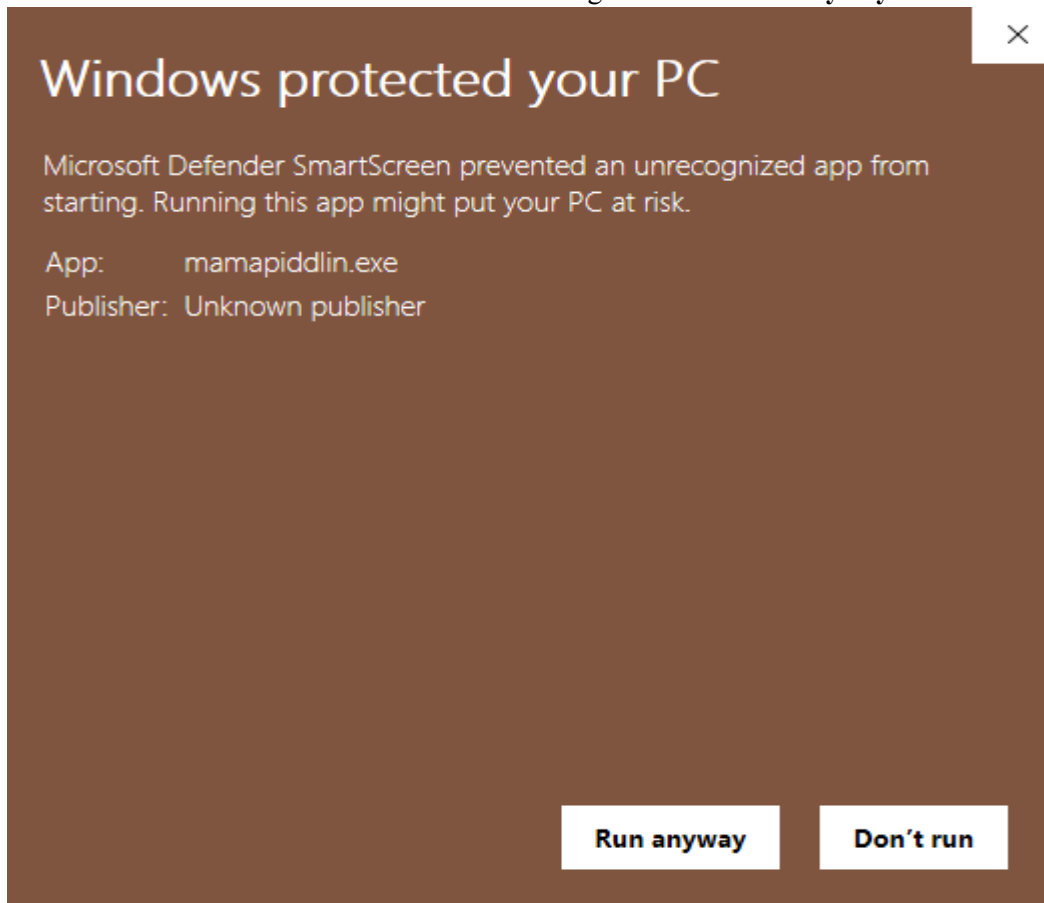

3...Thumb Drive & Executable

6. Double click the application in the folder and you will get the following warning popup.

4...Thumb Drive & Executable

7. Click the '**More info**' link underneath the warning and click '**Run anyway**' button

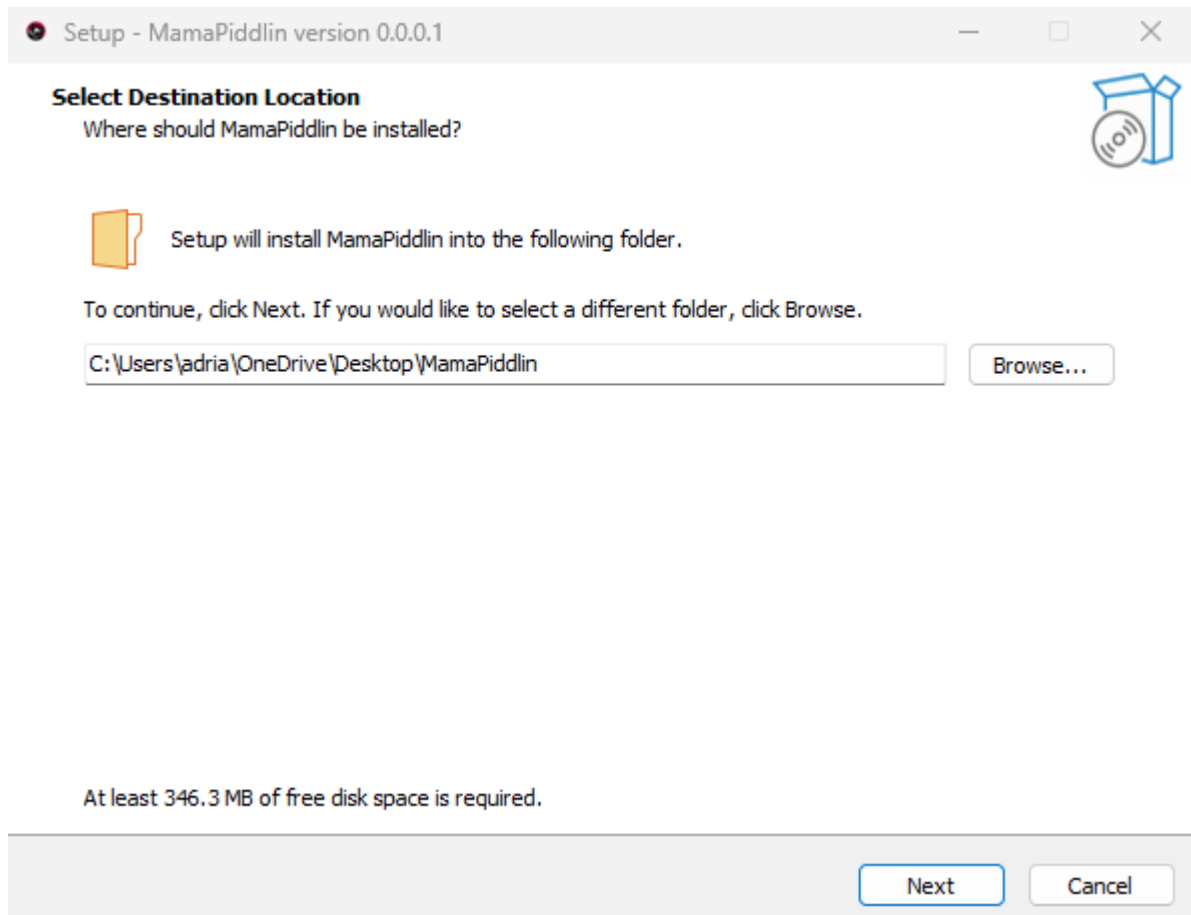

5...Thumb Drive & Executable

8. Another Windows popup will appear asking, '**Do you Want to allow this app to make Change to your device**'. You will click '**Yes**' to continue installation.

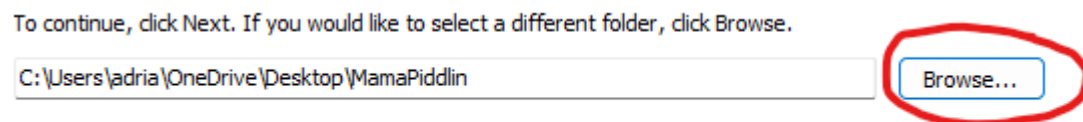

Begin Installation of the Program

9. The following screen will appear that allows the installation of the executable

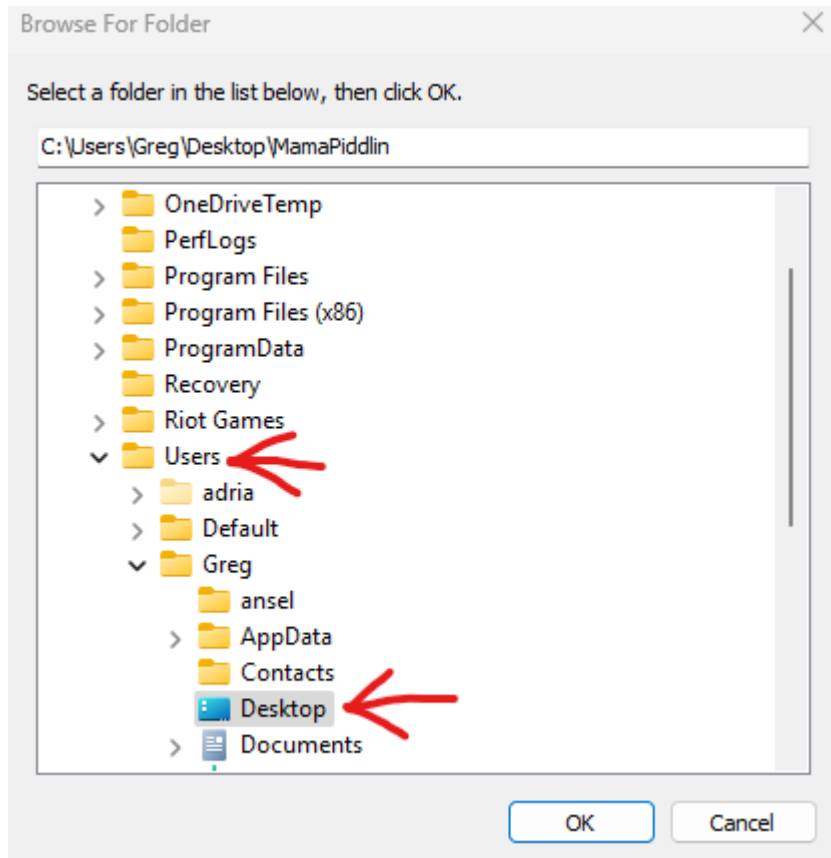

6...Installation

10. The recommended place to download the application will be on the Desktop file path
11. To access this file path, click the 'Browse'

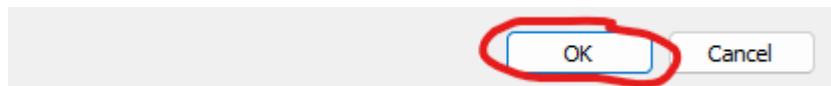

7...Installation

12. The following window will pop up. Find your related **User** folder and select the '**Desktop**' location for the installation

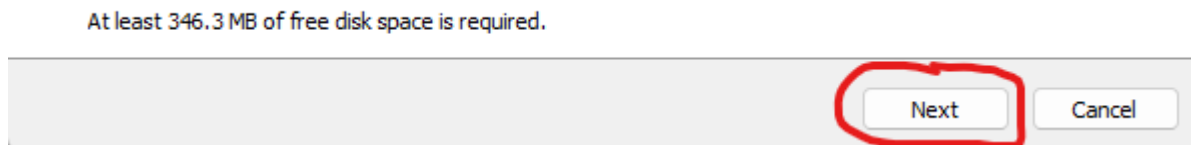

8...Installation

13. Next click the 'Ok' to button to confirm download location

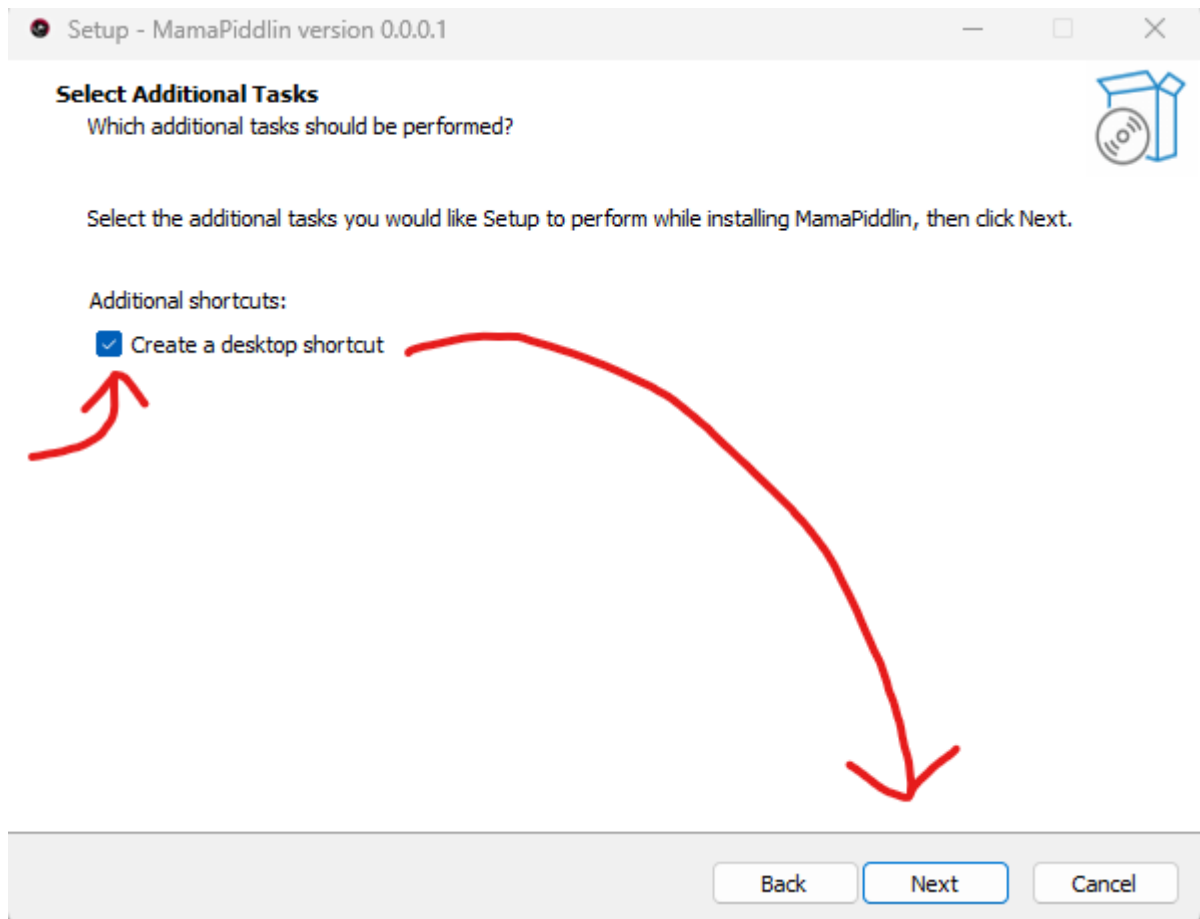

9...Installation

14. Click the 'Next' option to continue to the next screen

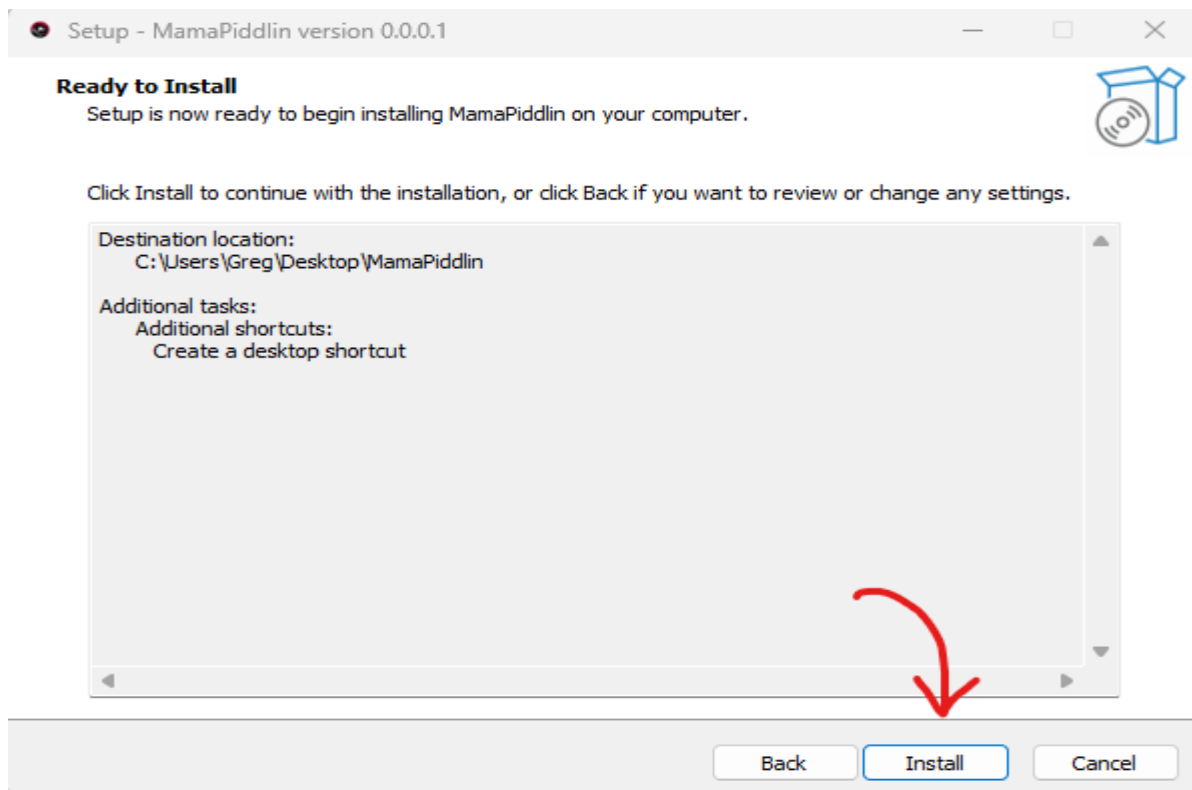

10...Installation

15. To add the desktop shortcut check the 'create a desktop shortcut' box and then click 'Next' again

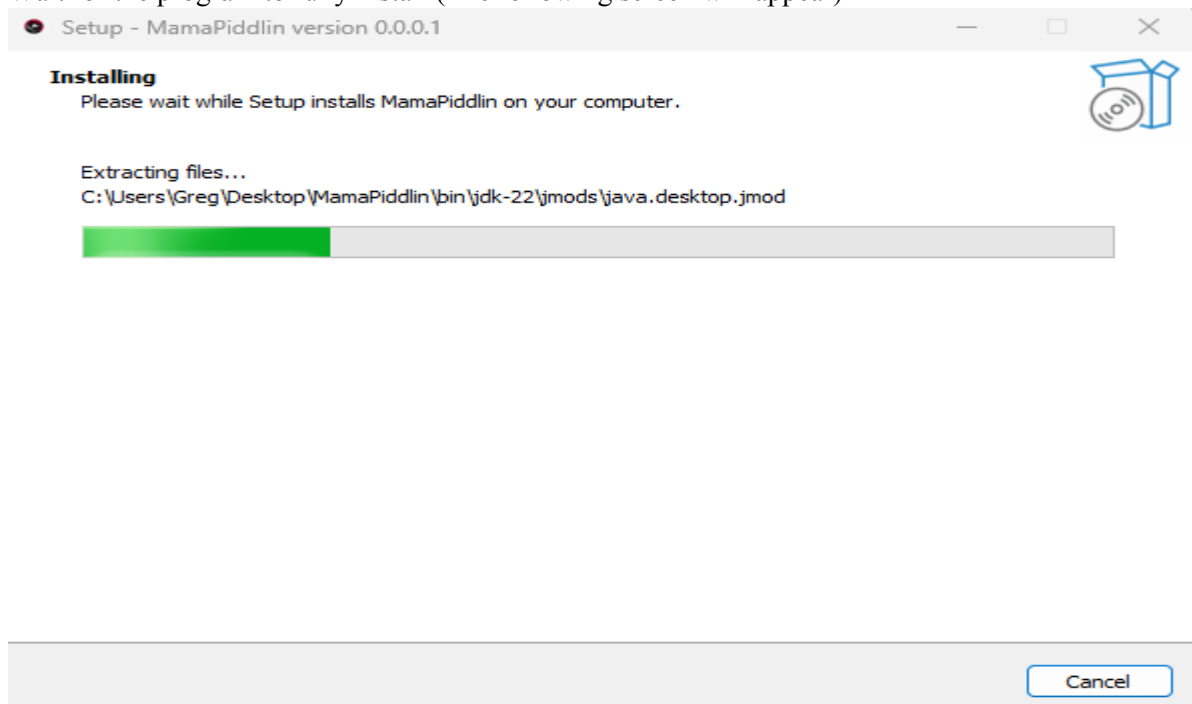

11...Installation

16. Finally, to start installing the program, click **'Install'** on the last window

12...Installation

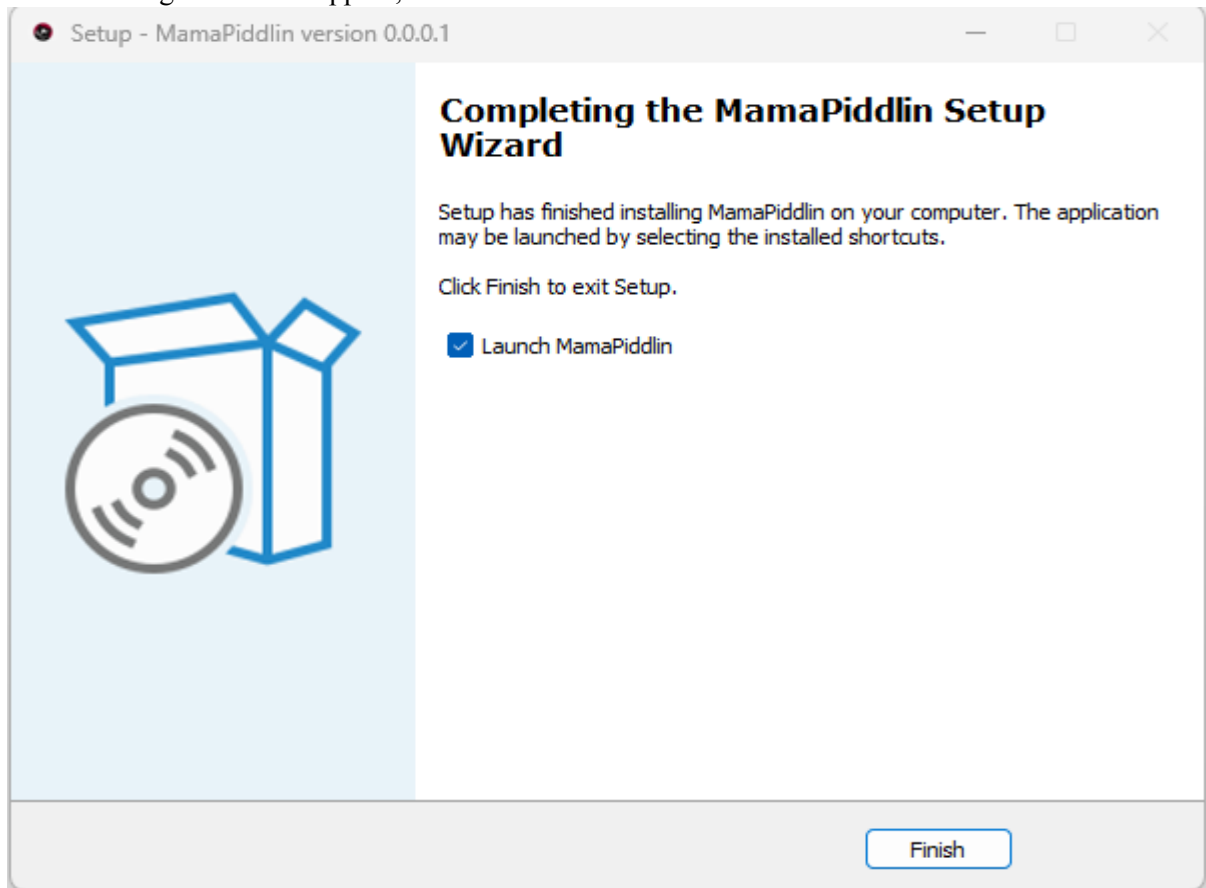

17. Wait for the program to fully install (The following screen will appear)

13...Installation

Finalize Installation of The Program

18. The following screen will appear, and confirms the installation is successful

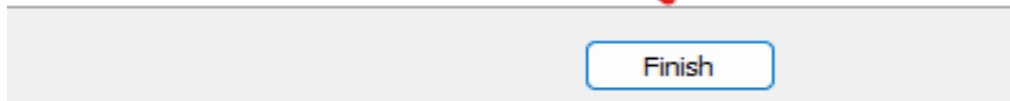

14...Installation

19. Click the 'Launch MamaPiddlin' check box, and also click 'Finish' to complete the installation

Setup has finished installing MamaPiddlin on your computer. The application may be launched by selecting the installed shortcuts.

Click Finish to exit Setup.

☒ Launch MamaPiddlin

15...Installation

20. Give the program a couple of seconds to load

21. You will be taken to the main dashboard (home screen) of the application after it loads

16...Installation

22. **The installation process has been completed!** Full access to MaMa's Piddlin is now available

Software Purpose

This application (Mama's Piddlin's) is designed for personal use by Jennifer Joyner, a local entrepreneur and donor who crafts and sells custom items such as quilts, quilt storage baskets, and aprons. The primary purpose of the software is to help Jennifer efficiently track items she creates for both sale and donation. By managing this inventory, she can better align sales with her philanthropic efforts—using revenue from product sales to fund the materials required for donation-based items.

The software provides a simple and intuitive experience. Upon launching the application, users are taken directly to the dashboard without needing to log in. This dashboard is the central hub for managing all item-related information. Users can easily search and filter items by name, with results showing key data such as the item ID, status (for sale, donation or inventory), pattern details, and an associated cost.

Key Features and User Benefits

The primary features that users will rely on include,

Search and Filter Capability:

- Easily find items based on their name, with immediate access to relevant item data.

Item Overview Display:

- View important details at a glance, such as pattern used, item status, unique identifier, and type of item it is.

Navigation Bar Accessing Products:

- From the dashboard, users can access the products menu to add or remove items and view financial data linked to each item.

These core features provide a clear, user-friendly approach to managing a dynamic inventory of handmade goods. End-users can quickly locate specific products, determine whether they are intended for sale or donation, and keep a visual record of everything created.

Advanced Functions

What sets this software apart from simple inventory systems is its built-in ability to:

Track Time Spent on Each Item:

- Record time (in minutes or hours) spent creating each product to better understand labor investment and improve cost analysis.

Manage Pricing and Material Costs:

- Users can associate each item with its material costs and price, helping monitor profitability and ensure that sales effectively support future donation projects.

Sale Price Calculator:

- Based on previously inputted information on a product, if a product is marked as a sale item, the application will calculate a suggested sale price for the item.

Together, these advanced features offer a holistic approach to inventory and financial tracking. By combining streamlined item management with financial insights, the application delivers functionality tailored to Jennifer's unique wants.

User Manual Breakdown

The layout and explanation of the application's functionality will be as follows.

- Each major page in the application will have its own section
- Inside the sections will include basic and advanced functionality as needed per tab
- Menu navigation will also be included for any tab/nav bar

Main Dashboard

The main dashboard acts as the landing screen for the program. It contains a central navigation bar that allows travelling to different screens. Its main functionality is that it contains a general (full) list of products that are currently logged in the database. These are displayed in a view in the center of the page. The navigation bar is also a part of the page's functionality.

Dashboard Navigation

1. To navigate to the Financials tab, click the label '**Financials**' in the nav bar

17...Dashboard

2. To navigate to the Products tab, click the label '**Products**' in the nav bar

18...Dashboard

3. To navigate to the Time Log tab, click the label **'Time Log'** in the nav bar

19...Dashboard

Basic Dashboard Functions

4. Main dashboard view

Product ID	Product Name	Product Type	Product Pattern	Product Status
1	Spring Squares	Quilt	Grandma's Econ...	Not Finished
2	Christmas in Blo...	Quilt	Always in Bloom	Not Finished
3	Fall Stars	Quilt	Opposites Attract	Not Finished
4	Prairie Pinwheel	Quilt	Quarter Square Pi...	Finished
5	SC	Scrub Caps		Finished
6	SC	Scrub Caps		Finished
7	BC	Bowl Coozies		Finished
8	BC	Bowl Coozies		Finished

20...Dashboard

5. **NOTE:** Searching for an item on the Dashboard only works for Product Name and Product Type

6. Searching for a specific item (VIA PRODUCT NAME)

The screenshot shows a web application window titled 'Dashboard'. The main heading is 'MaMa's Piddlin'. Below the heading are three buttons: 'Financials', 'Products', and 'Time Log'. A red arrow points to the 'Products' button. Below these buttons is a search bar containing the text 'Spring Squares', a 'Search' button, and a 'Reset' button. Below the search bar is a table with the following data:

Product ID	Product Name	Product Type	Product Pattern	Product Status
1	Spring Squares	Quilt	Grandma's Econ...	Not Finished

A red arrow points to the 'Spring Squares' text in the 'Product Name' column of the table.

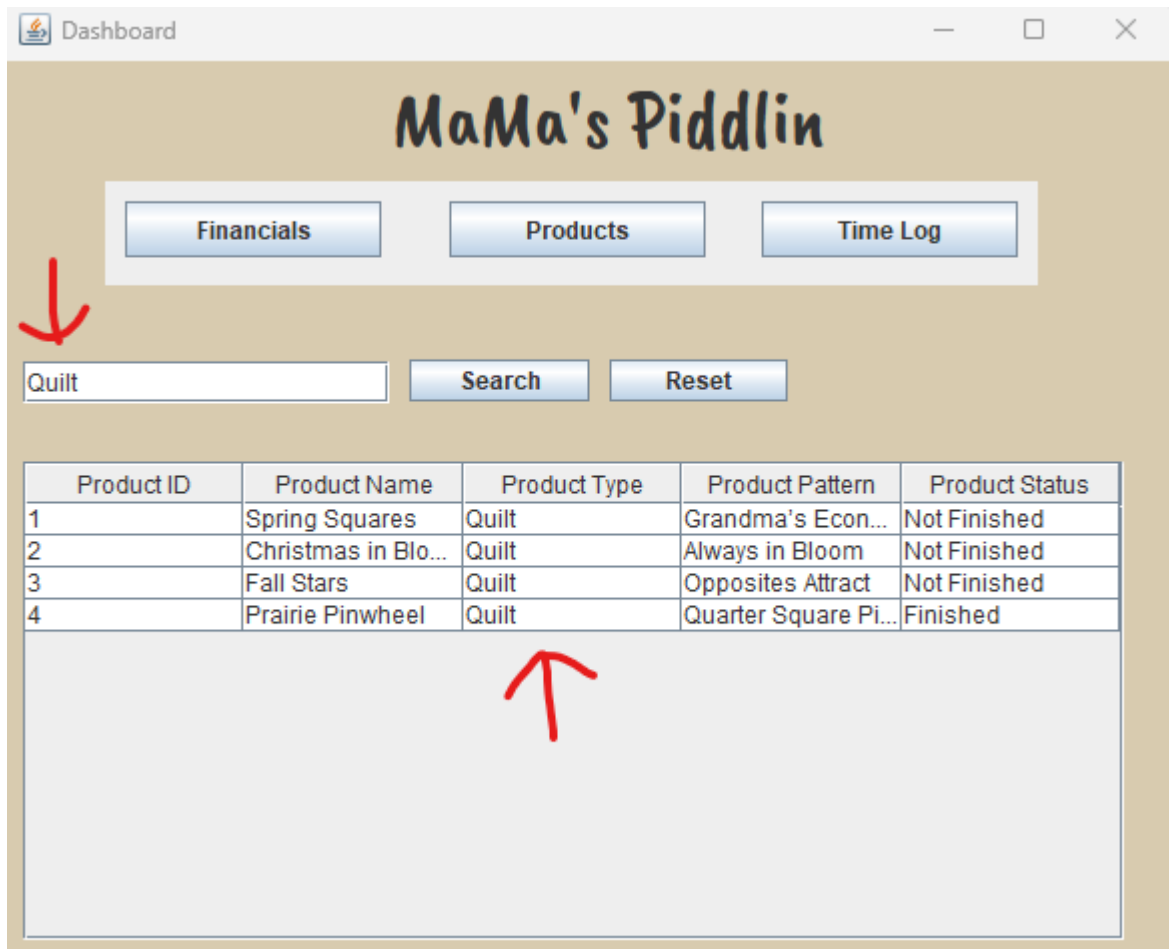

21...Dashboard

7. All items that fit the product name will be displayed
8. To clear the search bar, click '**Reset**'

This screenshot is similar to the previous one, but the 'Reset' button is circled in red. The search bar still contains 'Spring Squares', and the table below it shows the same data as in the previous screenshot.

22...Dashboard

9. Searching for a specific item (VIA PRODUCT TYPE)

The screenshot shows a web application titled "MaMa's Piddlin" with a dashboard interface. At the top, there are three buttons: "Financials", "Products", and "Time Log". Below these, there is a search section with a text input field containing the word "Quilt", a "Search" button, and a "Reset" button. A red arrow points to the search input field. Below the search section is a table with the following data:

Product ID	Product Name	Product Type	Product Pattern	Product Status
1	Spring Squares	Quilt	Grandma's Econ...	Not Finished
2	Christmas in Blo...	Quilt	Always in Bloom	Not Finished
3	Fall Stars	Quilt	Opposites Attract	Not Finished
4	Prairie Pinwheel	Quilt	Quarter Square Pi...	Finished

A red arrow points to the table. Below the table is a large, empty gray rectangular area.

23...Dashboard

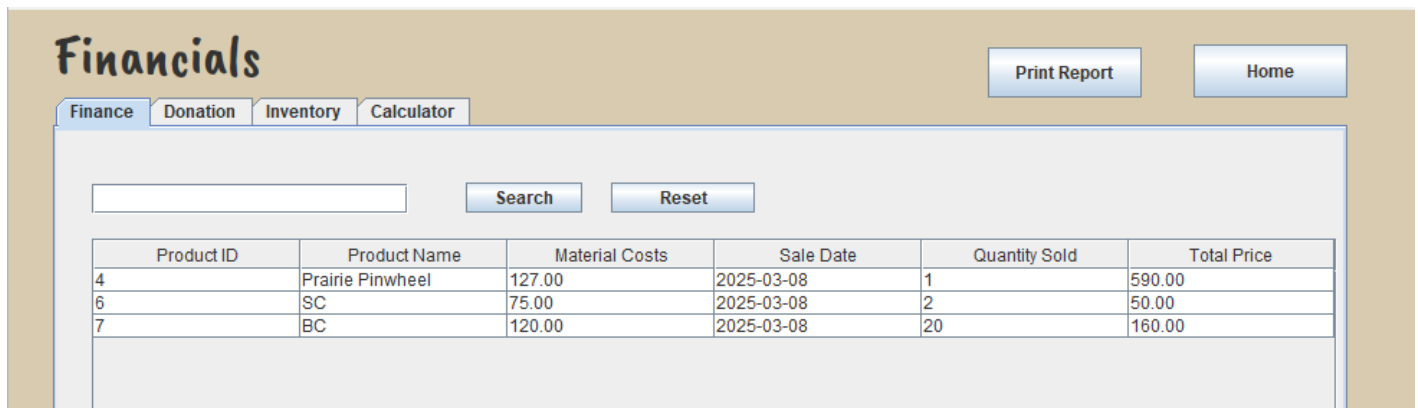

10. All items that fit the product type will be displayed

Financial Page

The financials tab contains all the information regarding money usage. It also has a way to view donations and current inventory. As a main feature, the tab includes a calculator that outputs a suggestive price to sell marked products. For general information, the tab displays total revenue and profit for the entire program's lifespan (acts as a running counter). A print report option is available if the user wants to screenshot a specific tab in the Financials page

Financials Navigation

11. User is automatically put on the Finance tab

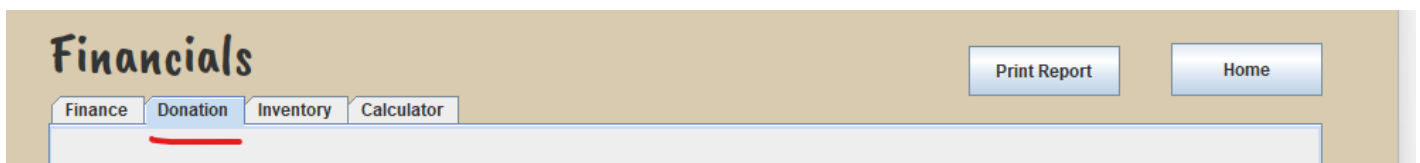

The screenshot shows the 'Financials' page with the 'Finance' tab selected. The page has a header with the title 'Financials' and two buttons: 'Print Report' and 'Home'. Below the header is a navigation bar with four tabs: 'Finance', 'Donation', 'Inventory', and 'Calculator'. The 'Finance' tab is active. Below the navigation bar is a search bar with a 'Search' button and a 'Reset' button. Below the search bar is a table with the following data:

Product ID	Product Name	Material Costs	Sale Date	Quantity Sold	Total Price
4	Prairie Pinwheel	127.00	2025-03-08	1	590.00
6	SC	75.00	2025-03-08	2	50.00
7	BC	120.00	2025-03-08	20	160.00

24...Financials

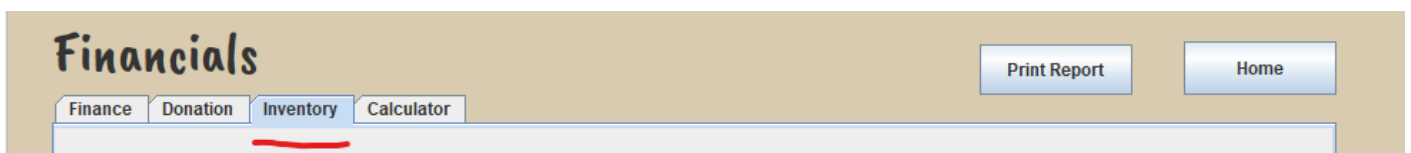

12. To navigate to the Donation tab, click the '**Donation**' button

The screenshot shows the 'Financials' page with the 'Donation' tab selected. The page has a header with the title 'Financials' and two buttons: 'Print Report' and 'Home'. Below the header is a navigation bar with four tabs: 'Finance', 'Donation', 'Inventory', and 'Calculator'. The 'Donation' tab is active. Below the navigation bar is a search bar with a 'Search' button and a 'Reset' button.

25...Financial

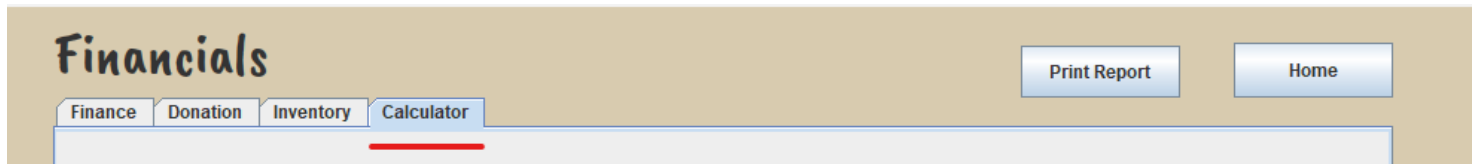

13. To navigate to the Inventory tab, click the '**Inventory**' button

The screenshot shows the 'Financials' page with the 'Inventory' tab selected. The page has a header with the title 'Financials' and two buttons: 'Print Report' and 'Home'. Below the header is a navigation bar with four tabs: 'Finance', 'Donation', 'Inventory', and 'Calculator'. The 'Inventory' tab is active. Below the navigation bar is a search bar with a 'Search' button and a 'Reset' button.

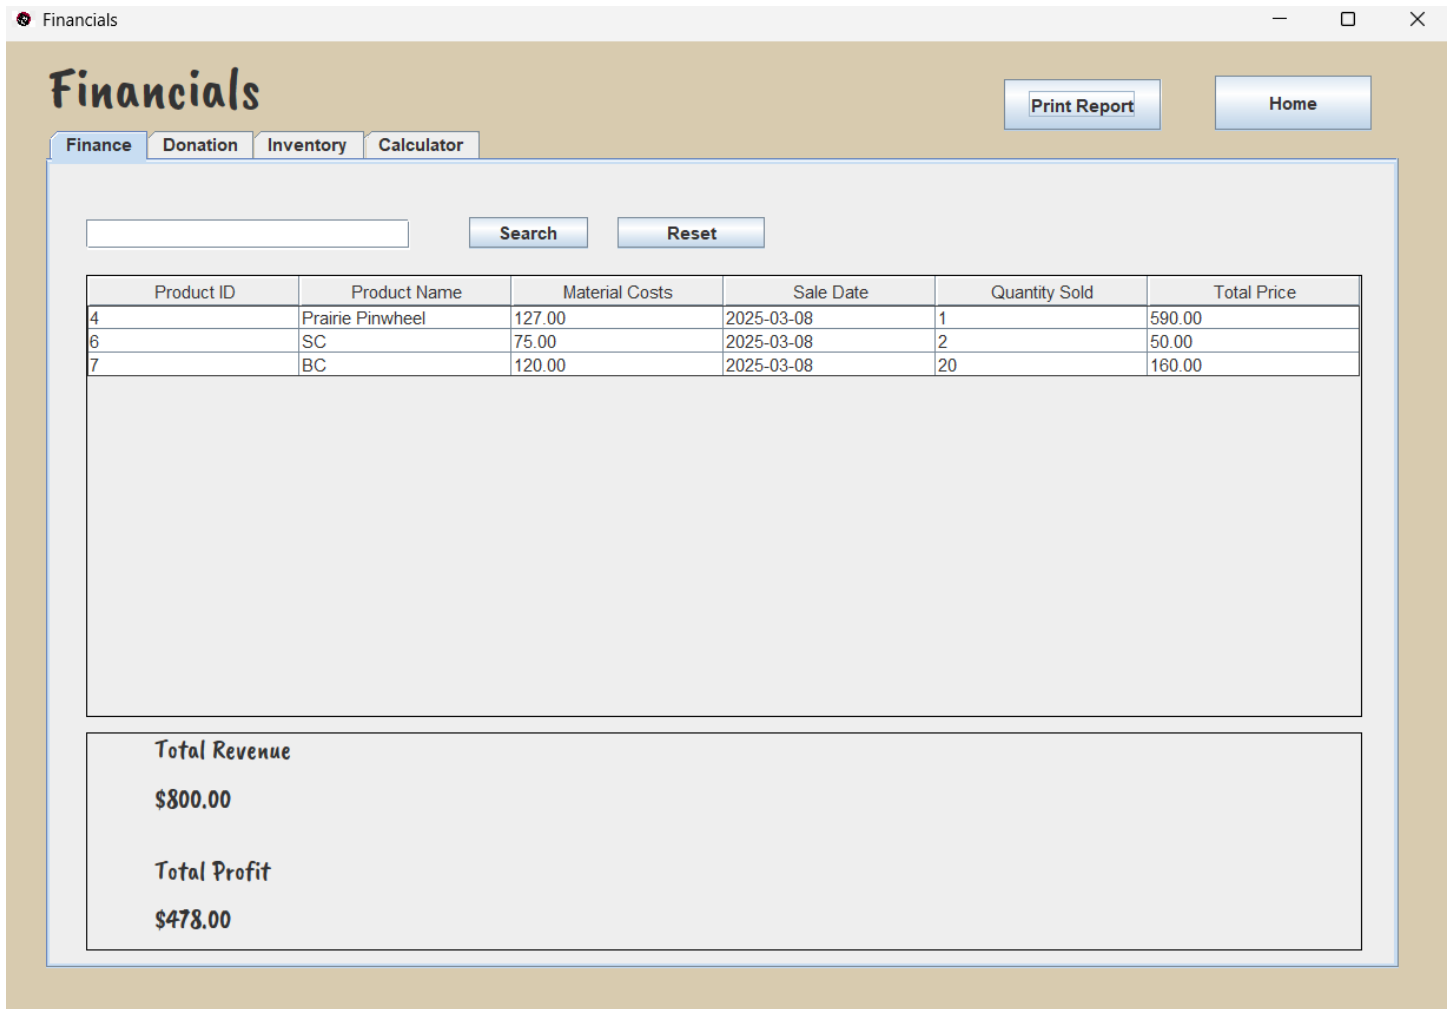

26...Financial

14. To navigate to the sale calculator, click on the **'Calculator'** button

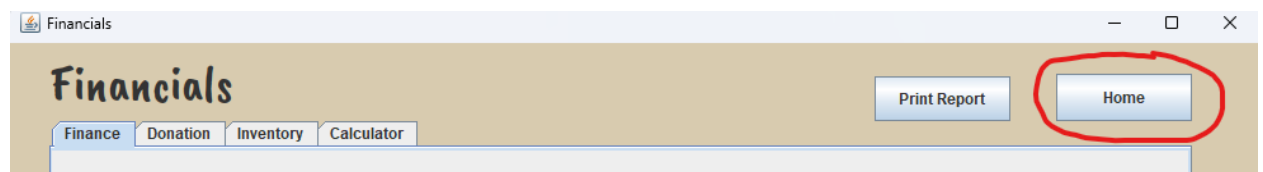

27...Financial

15. After clicking **'Financials'** on the Dashboard, the user is transferred to the **'finance'** tab

28...Financial

16. To return to the dashboard (Home) click the **'Home'** button on the top right

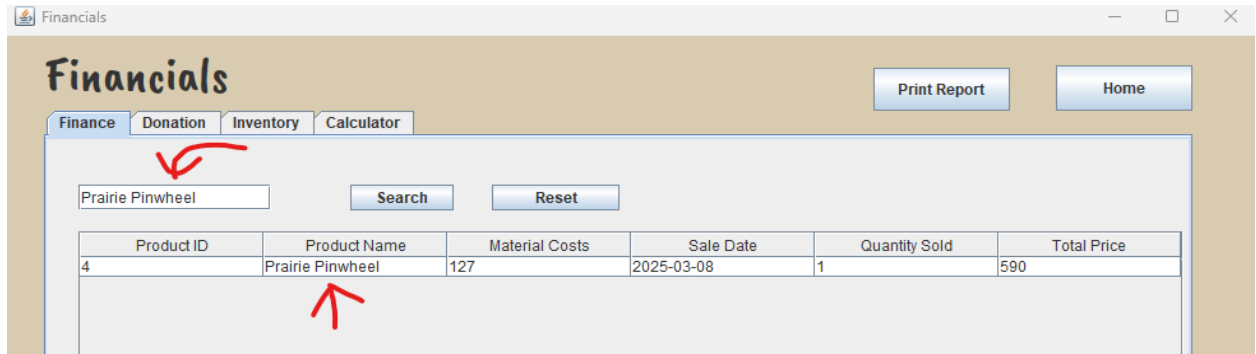

29...Financial

Basic Finance Tab Functions

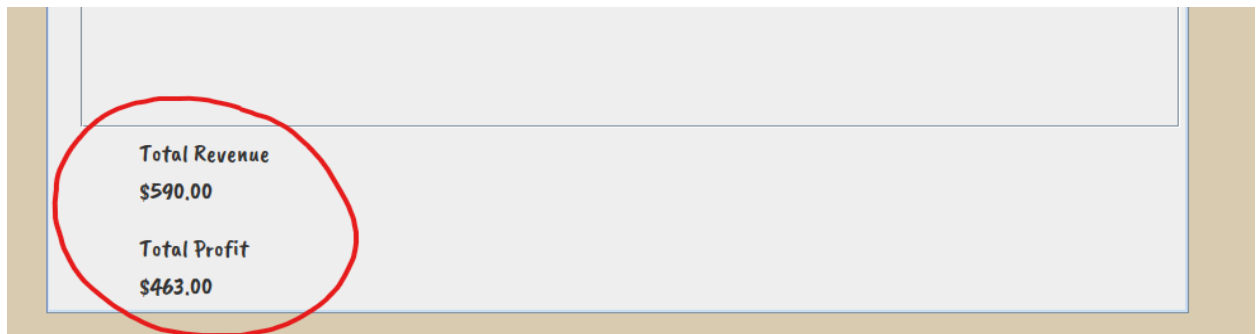

17. To search for a specific product, base the search bar input off Product Name
18. Searching for a specific items financials (VIA PRODUCT NAME)

NOTE: To reset the search view/bar is the same as shown in the Dashboard

30...Financial

19. View total revenue and profit (displayed on financials' landing page)

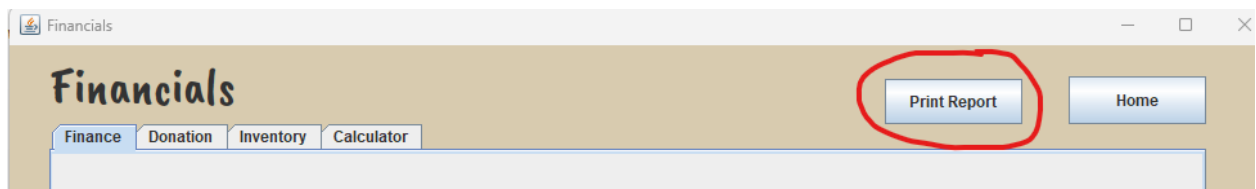

31...Financial

Advanced Finance Tab Functions

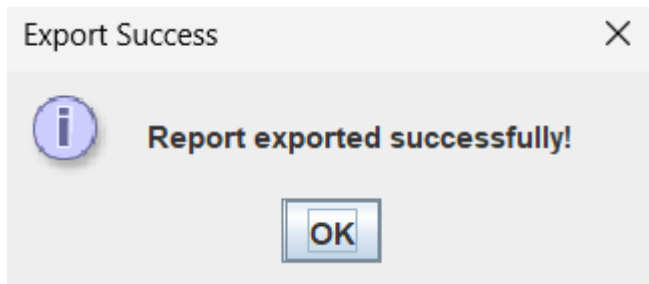

20. Print Report option (click to screenshot current view in the page)

NOTE: *Print report option is available on all tabs in financials and behaves the same way when creating a report*

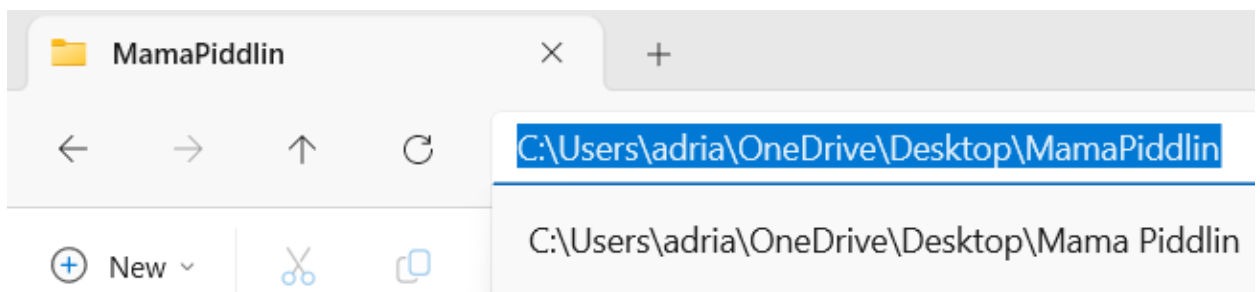

32...Financial

21. A confirmation will be displayed once pressed

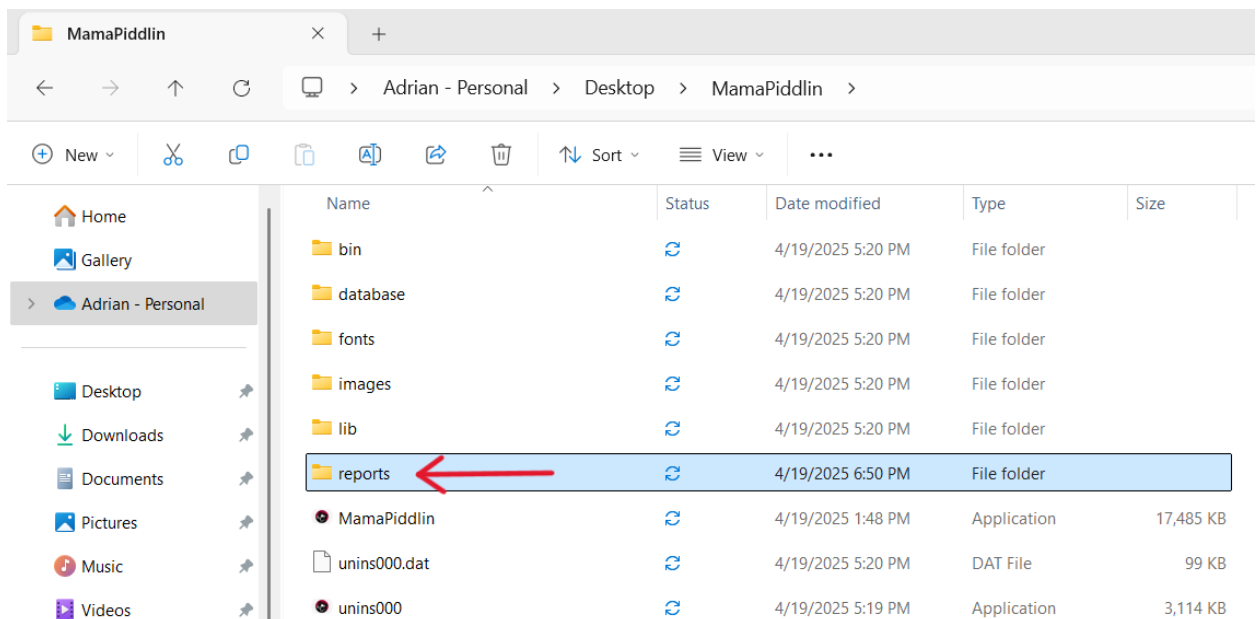

33...Financial

22. In order to find the report, you need to go into the folder where you saved the application, in this case the Desktop tab (Review Begin Installation of the Program).

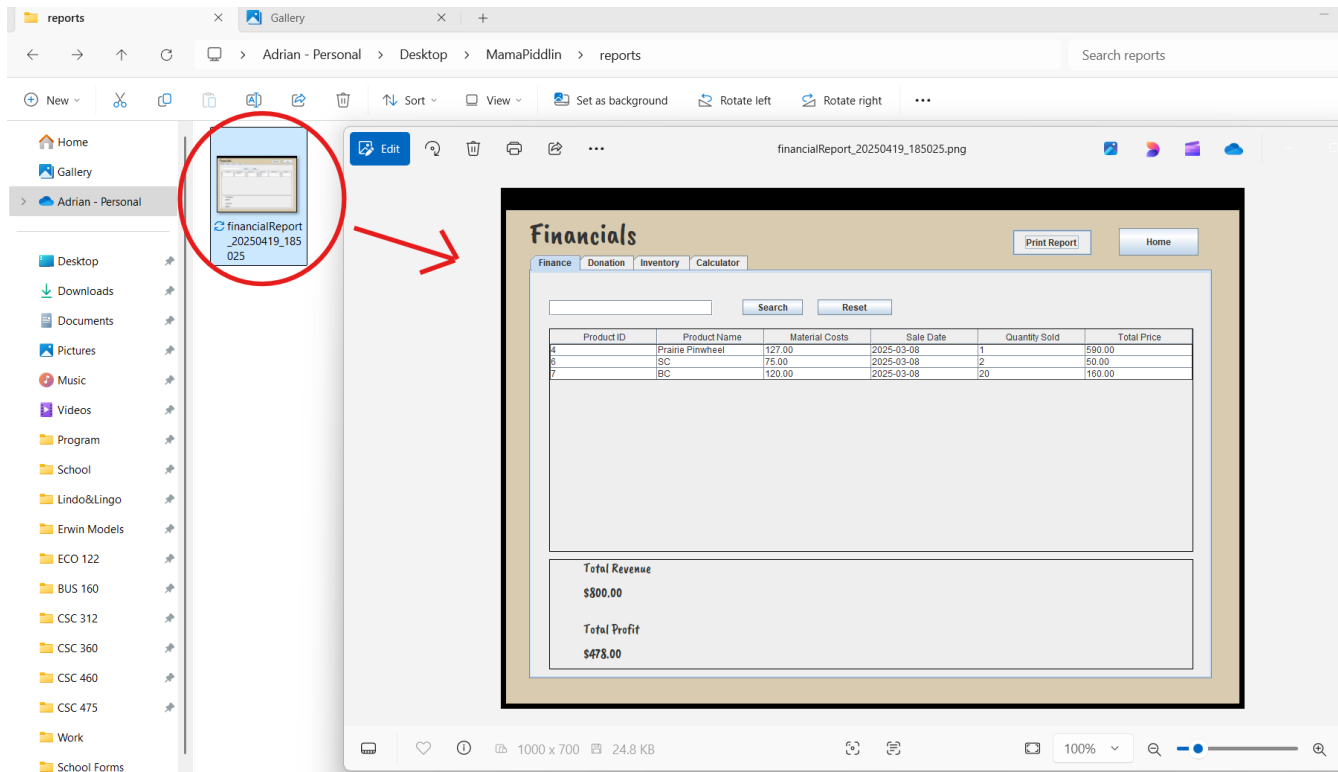

34...Financial

Once in the folder, click on the '**reports**' folder to access your screenshots.

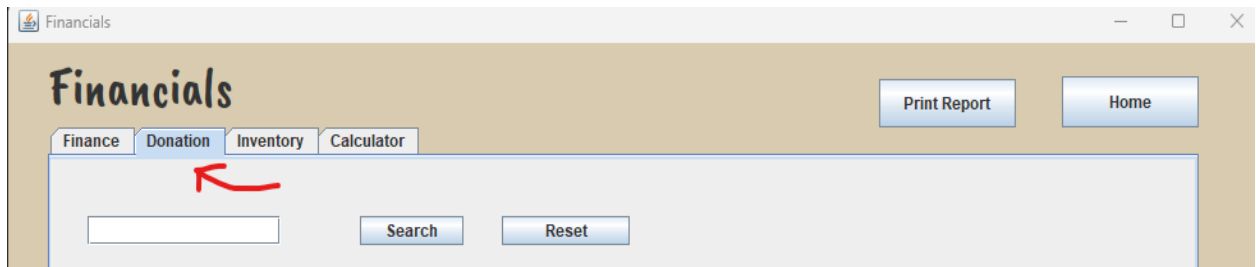

35...Financial

23. You can now view the screenshot taken from earlier, with a timestamp.

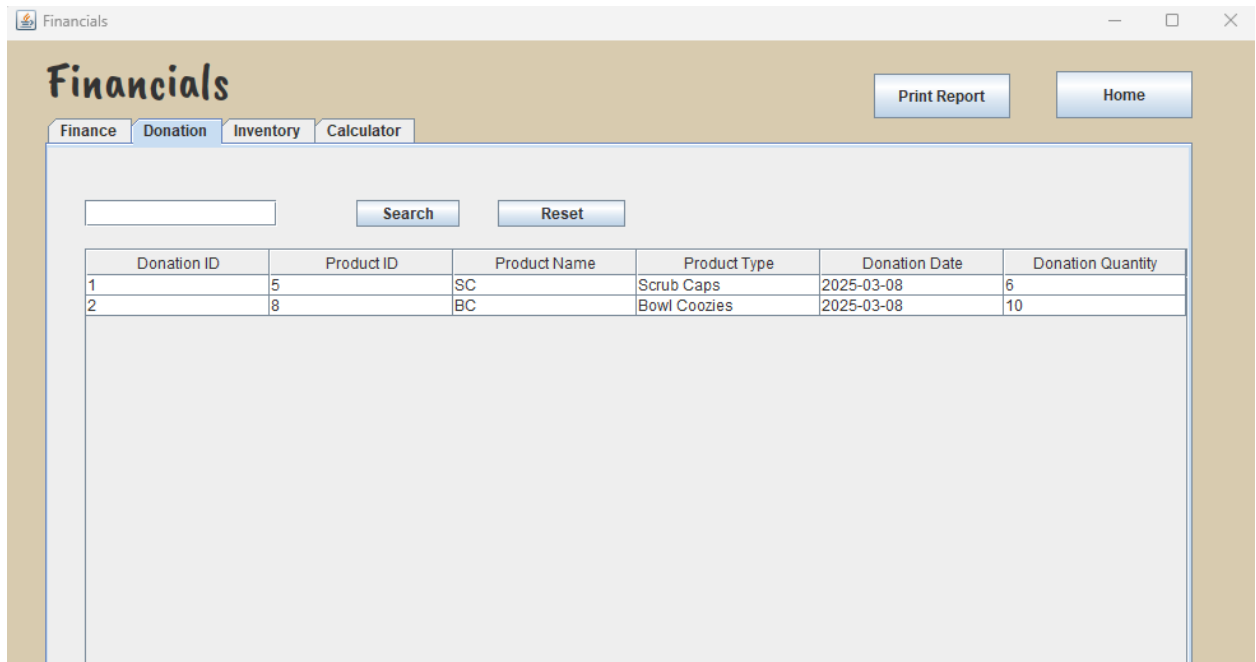

36...Financial

24. To navigate to the Donation tab, click the **'Donation'** button

37...Donation

25. The user will be brought to the Donation tab which contains all donation marked products

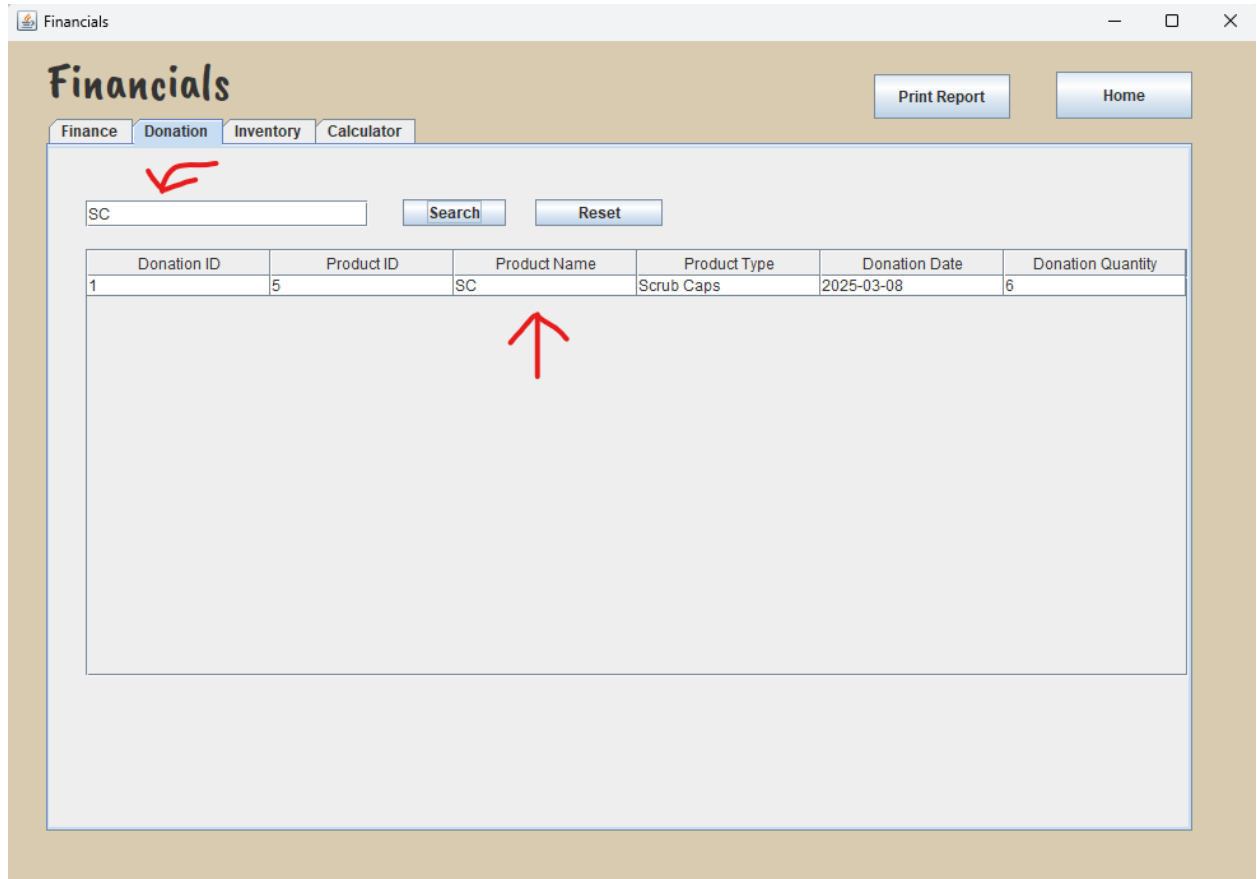

38...Donation

26. User is able to view/scroll through donate marked goods

Basic Donation Tab Functions

27. **NOTE:** Searching for an item on the Donation tab only works for Product Name and Product Type
28. Search for a specific donation (VIA PRODUCT NAME)

The screenshot shows the 'Financials' application window with the 'Donation' tab selected. A search bar at the top left of the tab contains the text 'SC', with a red checkmark to its right. To the right of the search bar are 'Search' and 'Reset' buttons. Below the search bar is a table with the following data:

Donation ID	Product ID	Product Name	Product Type	Donation Date	Donation Quantity
1	5	SC	Scrub Caps	2025-03-08	6

A red arrow points to the 'SC' entry in the 'Product Name' column of the table.

39...Donation

29. To reset the filter bar, click the **'Reset'** button (This was covered in the Dashboard section)

30. Search for a specific donation (VIA PRODUCT TYPE)

The screenshot shows the 'Financials' application window. At the top, there are tabs for 'Finance', 'Donation', 'Inventory', and 'Calculator'. The 'Donation' tab is selected. On the right, there are buttons for 'Print Report' and 'Home'. Below the tabs, there is a search bar containing the text 'Bowl Coozies'. To the right of the search bar are 'Search' and 'Reset' buttons. Below the search bar is a table with the following data:

Donation ID	Product ID	Product Name	Product Type	Donation Date	Donation Quantity
2	8	BC	Bowl Coozies	2025-03-08	10

Red arrows point to the search bar and the 'Bowl Coozies' entry in the table.

40...Donation

31. To navigate to Inventory tab, click the 'Inventory' button on the top

The screenshot shows the 'Financials' application window. At the top, there are tabs for 'Finance', 'Donation', 'Inventory', and 'Calculator'. The 'Inventory' tab is selected and circled in red. On the right, there are buttons for 'Print Report' and 'Home'.

41...Inventory

32. This brings up the Inventory tab for all products marked as inventory

1	Spring Squares	Quilt	2025-02-27
2	Christmas in Bloom	Quilt	2025-03-08
3	Fall Stars	Quilt	2025-03-08

Red arrows point to the search bar and the 'Product Type' column header.

44...Inventory

37. To navigate to the Calculator tab, click the 'Calculator' button on the top

The screenshot shows the 'Financials' application interface. At the top, there are tabs for 'Finance', 'Donation', 'Inventory', and 'Calculator'. The 'Calculator' tab is selected and circled in red. To the right of the tabs are 'Print Report' and 'Home' buttons.

45...Inventory

Basic Calculator Tab Functions

The Calculator Tab's main function takes the hours spent multiplied by a base rate of 15 to get the labor cost. The total cost will be determined from the material cost plus labor cost, which will be used to get the price per unit amount. The price per unit is determined by the total cost divided by the quantity sold.

38. To calculate a recommended price for a product and adjusted price, provide the following: hours spent as whole number, material cost, and quantity sold.

The screenshot shows a web application window titled "Financials". Inside, there's a navigation bar with tabs: "Finance", "Donation", "Inventory", and "Calculator" (which is selected). To the right of the tabs are two buttons: "Print Report" and "Home". The main content area is a light gray box containing a form. The form has three input fields at the top: "Material Cost (\$)" with the value "33.66", "Time Spent in Hours" with the value "32", and "Quantity Sold" with the value "4". Below these fields, the form displays two calculated values: "Base Recommended Price" and "Adjusted Price", both showing "\$0.00". At the bottom of the form are two buttons: "Calculate" and "Clear".

Material Cost (\$)	Time Spent in Hours	Quantity Sold
33.66	32	4

Base Recommended Price
\$0.00

Adjusted Price
\$0.00

Calculate Clear

39. Once you have the required information, you will click **'Calculate'** button on the bottom part of the tab

The screenshot shows a web application window titled "Financials". At the top, there are navigation tabs: "Finance", "Donation", "Inventory", and "Calculator". The "Calculator" tab is currently selected. In the top right corner of the window, there are two buttons: "Print Report" and "Home".

Inside the "Calculator" tab, there is a form with three input fields at the top:

- Material Cost (\$)**: A text box containing the value "33.66".
- Time Spent in Hours**: A text box containing the value "32".
- Quantity Sold**: A text box containing the value "4".

Below these fields, the application displays the following calculated values:

- Base Recommended Price**: This label is present but has no associated value.
- Total Cost: \$536.90**: This value is underlined in red.
- Adjusted Price**: This label is present but has no associated value.
- \$134.23 per unit**: This value is underlined in red.

At the bottom of the form, there are two buttons: "Calculate" and "Clear". The "Calculate" button is circled in red, indicating it is the next step in the process.

47...Calculator

40. To clear out the boxes, click the 'Clear' button

The screenshot shows a web application window titled "Financials". At the top, there are navigation buttons: "Print Report" and "Home". Below these are tabs for "Finance", "Donation", "Inventory", and "Calculator". The "Calculator" tab is active. Inside the calculator area, there are three input fields: "Material Cost (\$)", "Time Spent in Hours", and "Quantity Sold". The "Quantity Sold" field has a spinner control with the value "1". Below these fields, the text "Base Recommended Price" is displayed. Further down, "Total Cost: \$0.00" is shown. Below that, "Adjusted Price" is displayed as "\$0.00 per unit". At the bottom of the calculator area, there are two buttons: "Calculate" and "Clear". The "Clear" button is circled in red.

48...Calculator

41. User is able to calculate a new value with this

Products

The products page is for everything inclusive for adding, editing, and deleting products. Any item that is entered into the database can be accessed here. The user will be able to easily enter the needed

fields to create new products, or search for products using their ID's. This will allow them to edit or delete products in the application.

42. Once you navigate to the Products page, this screen will appear

Confirm Deletion ×

 Are you sure you want to permanently delete Product #8 (BC) and all its associated records?

65...Product

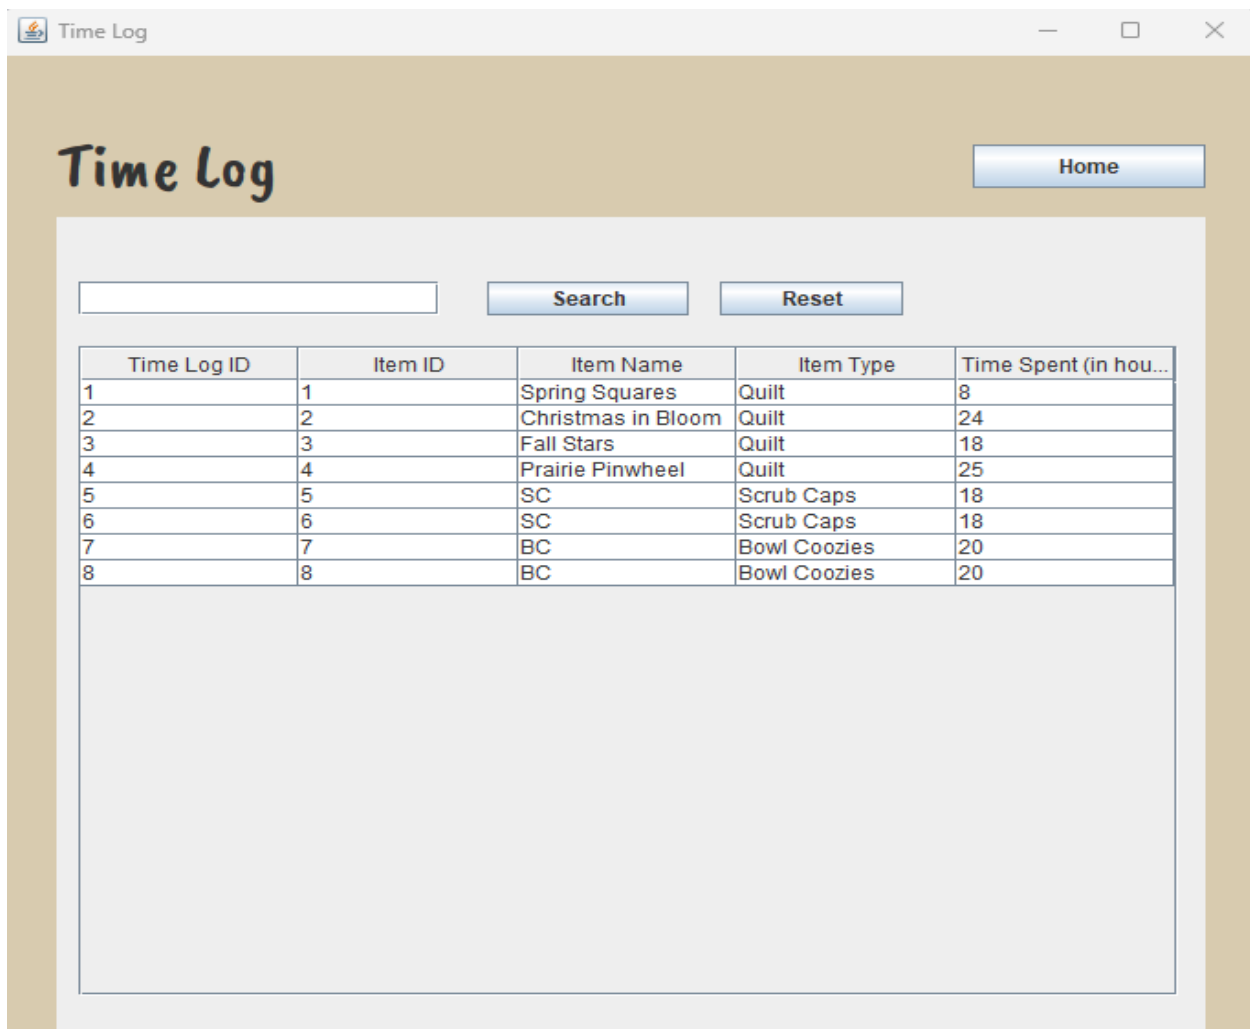

60. The following confirmation will pop up confirming the product deletion

66...Product

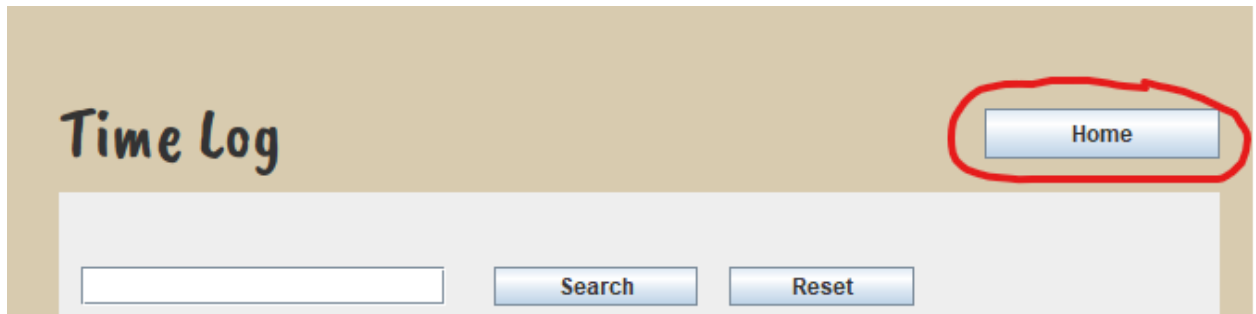

Time Log

The time log page allows the user to view all logged time units spent on the related products. If the user needed to check spent time on a product, the time log page is where that is shown. The time unit used to track time spent is hours. This is a read-only page just used for tracking amount of hours needed to create products

67...Time log

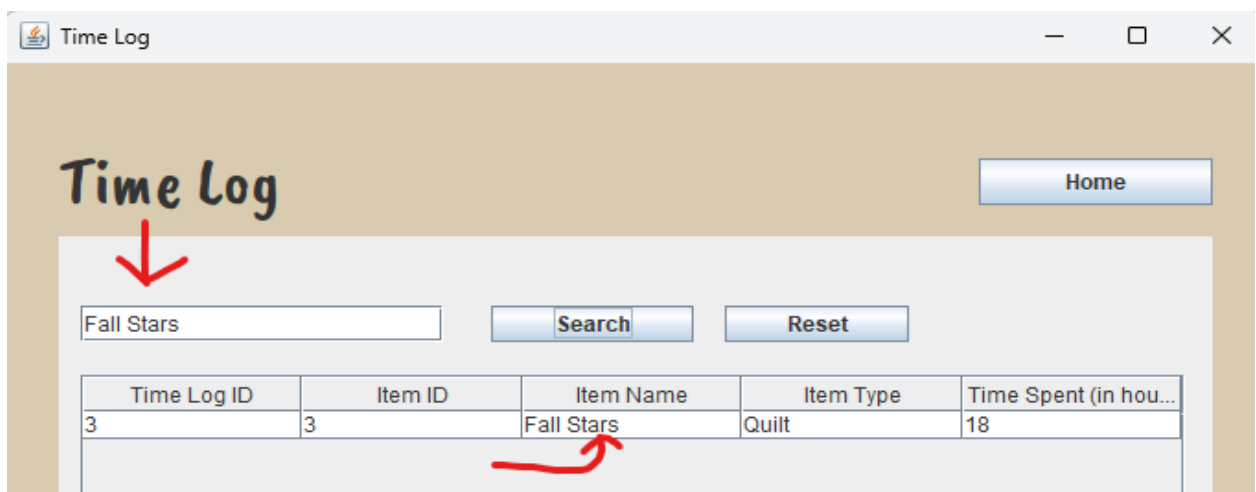

61. Once you navigate to the Time Log page, this screen will appear
62. To return to the Dashboard, click the **'Home'** button

68...Time log

Basic Time Log Functions

63. **NOTE:** Searching for an item on the Inventory tab only works for Product Name and Product Type
64. Search for a specific item in time log (VIA PRODUCT NAME)

69...Time log

65. To search for a specific item in time log (VIA PRODUCT TYPE)

70...Time log

66. To reset the filter bar, click the **'Reset'** button (This was covered in previous sections)

Tips and Warnings

- This section is for helping the user with the functionality of the pages
- Any extra information or ideas will be included here
- As the name of the section warrants, helpful tips and warnings will be included

Naming Conventions for Products (Tip)

- When adding products, it is recommended to stick to the following,
 - If user is adding a product called (for example) "Fire Quilt", please enter the name as "Fire Quilt" to make finding the item easier while searching.
 - In the same way, when entering the **product type**, please stick to the naming convention of "Quilt", "Scrub Cap" & "Bowl Coozie". Do not change spacing or capitalization of letters.

Deleting a Product (Warning)

- Be very careful when deleting a product. There is no "undo" button to get the item back
- It will have to be manually re-entered

Clearing Financial Calculator (Tip)

- After inputting values into the calculator tab in financials, make sure to **clear** (reset) the calculator
- If not the outputted price will NOT be correct

Application Fullscreen Appearance (Warning)

- Application does not support full screen functionality on all its pages

- Some pages will appear larger than others, this is based off of the pages functionality
